Education

Ph.D. Statistical Science, Duke University, 2009
Thesis: Bayesian Analysis and Computational Methods for Dynamic Modeling
Advisor: Mike West

M.S. Biostatistics, University of Minnesota, 2005
Thesis: Identifying and evaluating contrarian strategies for NCAA tournament pools
Advisor: Brad Carlin

B.ChE. Chemical Engineering, University of Minnesota, 1999

Academic Positions

Assistant Professor		Iowa State University
Statistics & Statistical Laboratory		2011–present
Assistant Professor		University of California, Santa Barbara
Statistics & Applied Probability		2009–2011

Employment

Consultant	Boehringer Ingelheim Vetmedica, Inc.	2012–2013
	Natural Resources Research Institute	2009–2010
	Denver Health	2008
	Purdue Pharma LP	2007–2008
Research Assistant	Duke University (Mike West)	2006–2009
	University of Minnesota (Brad Carlin)	2004–2005
	University of Minnesota (Grace Peng)	2003–2004
Junior Scientist	University of Minnesota	2001–2004
	Natural Resources Research Institute	2003
Research Engineer	Procter & Gamble	1999-2001

Publications

* Indicates a student who I am advising or co-advising.

Submitted Articles

David M. Brenner, Jack Dekker, **Jarad Niemi**, and Lisa Pfiffner. "Medical Oxygen Concentrators for Releasing Seed Dormancy." *accepted pending minor revisions to Crop Science*

Matthew Simpson*, **Jarad Niemi**, Vivekananda Roy. "Interweaving Markov Chain Monte Carlo Strategies for Efficient Estimation of Dynamic Linear Models." *submitted to the Journal of Computational and Graphical Statistics*

Ignacio Alvarez*, Jarad Niemi, and Matt Simpson*. "Bayesian inference for a covariance matrix." *submitted to the Proceedings for the Conference on Applied Statistics in Agriculture*

Presentations

"Massively Parallel Approximate Gaussian Process Regression," Joint Statistical Meetings, 7 Aug 2014 (invited)

"Particle learning for low counts in disease outbreaks," Department of Statistics, Iowa State University, 16 September 2013

"Particle learning for sequential estimation and prediction of disease outbreaks" 2013 ICSA-ISBS Joint Statistical Conference, 10 June 2013

"Statistical Methods for Identifying Gene Expression Heterosis" Conference on Applied Statistics in Agriculture, 30 April 2013 (joint with Dan Nettleton)

"Particle learning for low counts in disease outbreaks" Midwest Statistics Research Colloquium, 15 Mar 2013 (invited)

"A computational approach to the sequential control problem" Duke Department of Statistical Science 25^{th} Anniversary Celebration, 20 Oct 2012 (invited)

"Rejection sampling on a graphical processing unit" 11th World Meeting of the International Society for Bayesian Analysis, 28 June 2012 (invited)

"Determining optimal sequential disease outbreak interventions" University of Iowa, Computational Epidemiology Seminar, 20 Jan 2012 (invited)

"Optimal sequential management decisions for measles outbreaks" International Society for Disease Surveillance 10^{th} Annual Conference, 7 Dec 2011 (contributed)

"A sequential Monte Carlo primer" Iowa State University, Department of Statistics, Computational Statistics working group, 12 Oct 2011 (invited)

"Statistical computing on graphical processing units" Iowa State University, Department of Statistics, Computational Statistics working group, 28 Sep 2011 (invited)

"Time management." UCSB IGERT Career Development Seminar Series, 12 April 2011 (invited)

"Optimal dynamic policies for influenza management." Iowa State University departmental seminar, 24 February 2011 (invited)

"Optimal sequential management decisions for influenza outbreaks." University of California, Santa Barbara Statistics and Applied Probability departmental seminar, 12 January 2011 (invited, joint with Mike Ludkovski)

"Optimal sequential management decisions for influenza outbreaks." International Society for Disease Surveillance 9^{th} Annual Conference, 2 Dec 2010 (contributed)

"Evaluating individual player contributions in basketball." Joint Statistical Meetings, 4 Aug 2010 (contributed)

"A brief introduction to R." University of California, Santa Barbara Quantitative Methods in Social Sciences seminar, 8 April 2010 (invited)

"Early outbreak detection using syndromic surveillance networks." University of California, Los Angeles Biostatistics departmental seminar, 19 November 2009 (invited)

"A sequential Monte Carlo primer." University of California, Santa Barbara Statistics and Applied Probability departmental seminar, 21 October 2009 (invited)

"Adaptive mixture modeling Metropolis methods for state inference in nonlinear time series." Joint Statistical Meetings, 3 August 2009 (invited)

"Computational methods for general state-space models." University of New Mexico Mathematics and Statistics departmental seminar, 19 February 2009 (invited)

"Computational methods for general state-space models." University of Michigan Statistics departmental seminar, 17 February 2009 (invited)

"Computational methods for general state-space models." University of Texas, Austin Information, Risk, and Operations Management departmental seminar, 17 February 2009 (invited)

"Computational methods for general state-space models." Johns Hopkins Biostatistics departmental seminar, 6 February 2009 (invited)

"Computational methods for general state-space models." University of California, Los Angeles Biostatistics departmental seminar, 28 January 2009 (invited)

"Computational methods for general state-space models." Iowa State Statistics departmental seminar, 26 January 2009 (invited)

"Computational approaches for general state-space models." University of California, Santa Barbara Statistics and Applied Probability departmental seminar, 12 January 2009 (invited)

"Mixture likelihood ratio scan statistic for disease outbreak detection." 7th Annual Meeting of the International Society for Disease Surveillance, 3 December 2008 (contributed)

"Test power for drug abuse surveillance." BioSecure, 2 December 2008 (contributed)

"Assessing the effectiveness of a national drug intervention policy." Graduate Student Seminar Series, 17 November 2008 (contributed)

"Discrete-time models for intracellular processes in systems biology." Graduate Student Research Day, Duke University, 02 April 2008 (contributed)

"Bayesian analysis in systems biology: Advances and impact in single-cell dynamical networks." Graduate Student Seminar Series, 25 February 2008 (contributed)

"Stochastic modelling and estimation in dynamic cellular networks." 39th Symposium on the Interface: Computing Science and Statistics, 24 May 2007 (invited, given on behalf of Mike West)

"Bayesian modeling and inference in single cell dynamic networks." 39th Symposium on the Interface: Computing Science and Statistics, 26 May 2007 (contributed)

"Identifying and evaluating contrarian strategies for NCAA tournament pools." 2006 Joint Statistical Meetings, 8 August (contributed)

Posters

Jarad Niemi and Michael Ludkovski. Poisson-binomial state-space model for disease outbreaks with low counts. International Society for Bayesian Analysis World Meeting. 16 July 2014

Ignacio Alvarez* and **Jarad Niemi**. Bayesian Inference for covariance matrix. Conference on Applied Statistics in Agriculture, Kansas State University. 29 Apr 2014

MacDonald, A.L., L.A. Schulte Moore, M.J. Helmers, and **J.B. Niemi**. Bird response to native habitat strips integrated into agricultural fields. International Conference on Agricultural Biodiversity and Sustainability, Hokkaido University, Japan. 29 Aug 2012

A.L. MacDonald, L.A. Schulte, M.J. Helmers, and **J.B. Niemi**. 2012. Testing a new conservation practice for agricultural landscapes: Bird response to prairie strips in row-cropped landscapes. 97th Annual Meeting of the Ecological Society of America, Portland, Oregon. 7 Aug 2012

Jarad Niemi. "A Tool for Interactive Disease Outbreak Visualization, Detection, and Forecasting" International Society for Disease Surveillance 12th Annual Conference, 7 Dec 2013

Jarad Niemi. "An exploratory analysis of the 2010 measles outbreak in Zimbabwe" International Society for Disease Surveillance 10th Annual Conference, 7 Dec 2011

Jarad Niemi and Matthew Wheeler. "Parameter inference in stochastic chemical kinetic models on GPUs." MCMSki3: 4th International IMS/ISBA Joint Meeting, 6 Jan 2011

Jarad Niemi and Mike West. "Nonlinear dynamic models for single-cell time-lapse microscopy." Duke Center for Systems Biology Retreat, 18 May 2009

Jarad Niemi "Adaptive mixture filtering: an alternative to particle filtering?" SAMSI Sequential Monte Carlo Kickoff Workshop, 8 September 2008.

Jarad Niemi and Mike West. "Bayesian parameter estimation for systems biological models of dynamic cellular networks." SAMSI Biosystems Modeling Workshop, 5 March 2007.

Jarad Niemi and Mike West. "Bayesian parameter estimation for systems biological models of dynamic cellular networks." 1st Annual Duke Systems Biology Symposium, 14 September 2006.

Jarad Niemi and Mike West. "Bayesian parameter estimation for systems biological models of dynamic cellular networks." 8thValencia International Meeting on Bayesian Statistics, 5 June 2006.

Courses taught

Regular courses

Fall 2014	401A	Statistical Methods for Research Workers
	330	Probability and Statistics for Computer Science
Spring 2014	544	Bayesian Statistics
Fall 2013	401A	Statistical Methods for Research Workers
	615	Advanced Bayesian Methods
Spring 2013	544	Bayesian Statistics
Fall 2012	401A	Statistical Methods for Research Workers
	HON 321E	Paradox
Spring 2012	401A	Statistical Methods for Research Workers
Fall 2011	615	Advanced Bayesian Methods
Spring 2011	120C	Probability and Statistics (categorical, nonparametrics, and Bayesian)
	230	Seminars and Projects in Statistical Consulting
Winter 2011	220B	Advanced Statistical Methods (GLMs)
Fall 2010	120B	Probability and Statistics
Spring 2010	120B	Probability and Statistics (estimation and testing)
	230	Seminar and Projects in Statistical Consulting
Winter 2010	262	Applied Bayesian Time Series

Independent studies

Spring	596	Parallelizing block composite likelihoods
Winter 2011	596	Bayesian inference in stochastic chemical kinetic models
	596	Bayesian inference in ecological models
	510	Preparation for applied statistics qualifying exam
Fall 2010	596	Bayesian inference in graphical processing units
Spring 2010	596	Importance sampling on graphical models

Short courses

Dec 2014	Introduction to R for Biosurveillance	ISDS	1-day
Apr 2010	Sequential Monte Carlo methods	ASA-Albuquerque	$\frac{1}{2}$-day
Dec 2009	Introduction to statistical analysis in R	NRRI	2-day

Jarad B. Niemi

Grants, Honors, and Awards

Nettleton, D. Liu, P., Niemi, J., Schnable. P. Hierarchical Modeling and Parallelized Bayesian Inference for the Analysis of RNAseq Data, National Institutes of Health, September 1, 2013 to May 31, 2017 [$ 1,088,156] (2013)

Iowa State University Health Research Initiative on Infectious Diseases (investigator) [$150,000] (2012)

World Meeting of the International Society for Bayesian Analysis Early Career Researchers Travel Grant [$500] (2012)

Iowa State University grant for GPU cluster and RA support [$88,000] (2011)

University of California Regents Junior Faculty Fellowship [$7,500] (2011)

MCMSki3 conference travel support [$650] (2011)

NVIDIA Academic Partnership Program award [2×C2050 GPGPUs] (2010)

Section on Bayesian Statistical Science Student Paper Competition winner [$1,000] (2009)

International Society for Disease Surveillance Technical Contest 2nd place (2008)

NSF National Research Service Award Fellowship (2003–2004)

Memberships
